

## Marine Guard

### Protect Your Investment!

Do you realize that it only takes one intruder less than 10 minutes to spoil your leisure plans for the day? A thief can remove electronics and valuable possessions very quickly. Usually, they finish their task completely unnoticed. Then, you arrive at your boat ready to spend a day by yourself or with friends and family, and instead find your boat ransacked and your plans ruined.

### Protect your boat with the Marine Guard Security System! Marine Guard Systems

**MarineGuard 44 Security System (MG44)** is designed for boats under 40 feet where you can get under the decking. The system includes the security control panel which is encased in epoxy to protect it from the harsh marine environment, a white siren to provide an audible alarm, two key-chain transmitters to arm and disarm the system, status LED's, a chime mounted on a white switch plate, two Deck sensors, one large contact, one small contact.

#### SUMG44

**MarineGuard 48 Security System (MG48)** is designed for boats over 40 feet where you can get under the decking. The system includes the security control panel which is encased in epoxy to protect it from the harsh marine environment, a white siren to provide an audible alarm, two key-chain transmitters to arm and disarm the system and a chime mounted on a white switch plate, four Deck sensors, one large contact, one small contact.

#### SUMG48

**Ideal for Yachts, Houseboats and boats  
with open cockpits:**

- Security Only
- Controlled by Wireless Transmitter
- Siren Output
- Invisible System
- Pulsors mounted under the decking detect people's weight
