

Tone/Vibrating Paging System WPRUT3000

The Dakota Property Paging System works in conjunction with any of our driveway announcing systems to give you the flexibility of a portable pager/receiver! It can also be used as a stand-alone paging system.

Connect to our Optex Wireless Driveway Alarm, Dakota Alert, Mier Drive Alert, All MURS Systems and AutoAlert AL155 Vehicle Detection System. A great addition to any Driveway System!

The Dakota WPRUT3000 includes a vibrating and digital receiver that can be worn on your belt or put in your pocket to notify you of a visitor or customer, or when the manual paging button has been pushed. This paging system will work up to 3000 feet, depending on terrain and antenna height. Also included is a built-in vibrating mode for silent paging. The rechargeable battery and charger are included.

This system is perfect for:

- **Small Business
- **Farms
- **Restaurants
- **Greenhouses
- **Garden Markets
- **Home Owners

System Features:

- 3000' Universal Transmitter
- Tone/Vibrating Pager with Belt Clip
- Pager uses rechargeable Lithium Ion batteries
- Transmitter uses standard 9 volt battery.
- Manual paging button
- Connection for remote buttons and sensors.
- 12 VDC 1Amp Power Supply

All Dakota Transmitters and Receivers are interchangeable, allowing you to expand and enhance your Driveway Alarm System!

Expand your paging system by adding additional pagers (WPR3000), and additional WUT Universal Transmitters(WUT3000).
