SENSAPHONE, INC. PROVIDES A PROACTIVE APPROACH TO FULFILLING CUSTOMER NEEDS

Aston, PA — A manufacturing company's technical service department often does everything except service the customer. At Sensaphone, Inc., service not only comes first, it remains active for the life of the product.

Sensaphone, Inc. employs a fully staffed technical service department, operated Monday through Friday, from 8 a.m. to 5 p.m. And our technical service representatives often go beyond the call of duty and the frame of regular business hours if it means customer satisfaction.

Sensaphone, Inc. manufactures a comprehensive line of remote monitoring systems for monitoring equipment, safeguarding property and reporting critical data for a variety of industries. Our family of Sensaphone® products serves industrial, commercial and residential purposes.

Sensaphone technical service reps stay in communication with customers in the field and on the job. They strive to instill our clientele with the knowledge necessary to efficiently operate and maintain their remote monitoring systems.

Sensaphone service staff also advise clients on which of the many available Sensaphone® systems would best suit specific applications. From small computer rooms to multi-site factory applications, Sensaphone service representatives always advise customers in their best interests when selecting a remote monitoring system.

Sensaphone claims to offer the highest quality product line, the best product support and the best customer satisfaction record in the industry. We pride ourselves in responding to the needs of our market, evolving as a company and developing new products to better serve our customers.

SENSAPHONE®
HOW DID YOU MANAGE WITHOUT IT?™
